Multifamily and Mixed-Use Properties

CONDO
PACK

R454B Refrigerant
Available in R410A in Canada

condopack.com

OUT-OF-THE-BOX THINKING... ON THE INSIDE!

Condo Pack is an excellent option for any multi-family building: apartments, condominiums, campus housing, and so much more.

Condo Pack is designed for easy installation and maintenance:

- No exterior equipment to maintain - everything is accessible from inside
- Pre-wired and pre-charged
- Backed by Napoleon's best in class warranty
- Dual slide out modules for simple servicing

**Refer to warranties for more details.*

Environmentally Responsible

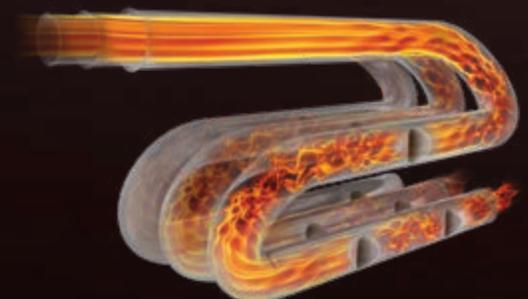

Napoleon uses R-454B refrigerant, which offers improved energy efficiency and reduces greenhouse gas (GHG) emissions. This refrigerant has a significantly lower Global Warming Potential (GWP), no ozone depletion potential (ODP), and low toxicity.

R-454B's GWP is over 75% lower than its predecessor, R-410A, and it exceeds EPA requirements for low-GWP refrigerants (<700 GWP). It also enhances energy efficiency.

Stainless steel primary heat exchanger

The Vortex™ turbulator inside the heat exchanger increases efficiency by disrupting the natural airflow which extracts the maximum heat from the flue gases.

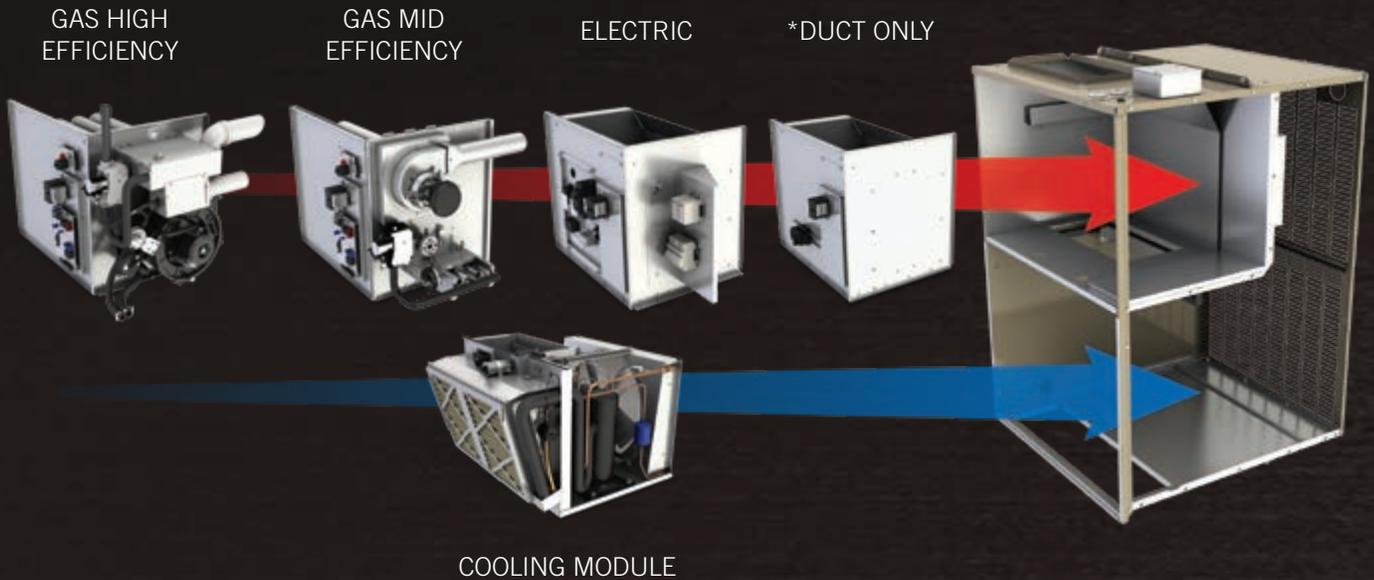

condopack.com

Built with confidence for performance and efficiency

Condo Pack delivers up to 96.8% AFUE and use high performance compressors to provide an efficient heating and cooling solution.

Heating Module Options

**DUCT ONLY: Available in R410A Models Only.*

Product images are subject to change without notice

Custom architectural louver options to compliment your project's exterior look.
